Extra pallet support bar

An accessory which supports the pallet in the middle if heavily loaded. Especially recommended if using plastic pallets long side forwards with transverse mounted models 13 804 och 13 805, see product data sheets.

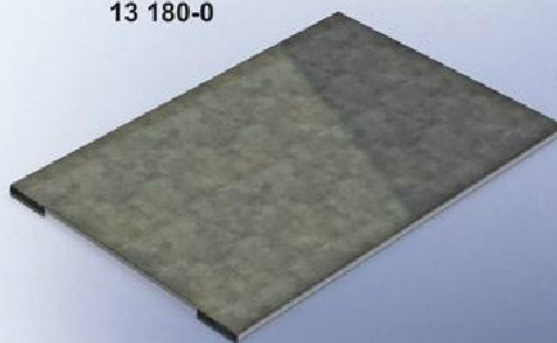

LOADING

Article no.	Specification	Dimensions
13 001-0	Extra wheels for pallet short side models	
13 001-1	Extra wheels for pallet long side (transverse) models	

13 180-0

Steel shelf for floor mounted pull-out unit

Covers unit so it can be used with cartons etc. without a pallet. Important - unit must be equipped with an extra pallet support bar. N.B. cannot then be loaded using fork lift.

Article no.	Specification	Dimensions
13 180-0	Steel shelf for short side floor models	
13 180-6	Steel shelf for long side (transverse) floor models	

Removable handle

This is useful if you find the handle gets in the way when loading or picking.

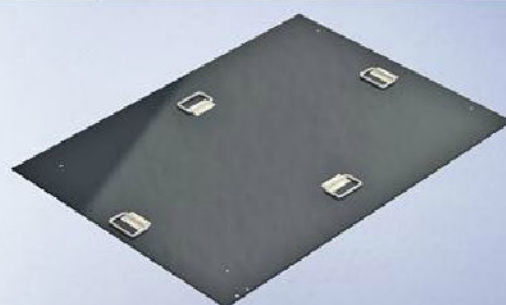

Article no.	Specification	Dimensions.
13 802-2	Removable handle, no locking system	H=500mm
13 802-3	Removable handle, with locking system	H=500mm
13 802-4	Removable handle, no locking system	H=800mm
13 802-5	Removable handle, with locking system	H=800mm
13 802-6	Removable handle, no locking system	H=1000mm
13 802-7	Removable handle, with locking system	H=1000mm

Upgrade kit

Use this accessory to upgrade from the light duty rails (13 800-0 and 13 600-0) to heavy duty (13 801-0). The heavy duty rails protect the unit from being knocked off the rails in the event of side impacts. They also hold the unit straight in the pulled out position so there is no resistance to pushing it back into place. Consist of 2 rails, handle support and expander bolts.

Article no.	Specification	Dimensions
13 801-05	Floor model upgrade kit	

Drill guide

About to install more than just a few units? Cut installation time and get a professional result with our drill guide.

Article no.	Specification	Dimensions
	Drill guide for floor mounted pull-out units	

Side handle

If you need a different length from the one included.

Article no.	Specification	Dimensions
13 150-31	Side handle with locking system	L=500mm
13 150-41	Side handle with locking system	L=700mm
13 150-51	Side handle with locking system	L=900mm
13 804021	Easy Action handle	L=330mm
13 804022	Easy Action handle	L=500mm
13 804023	Easy Action handle	L=800mm
13 804024	Easy Action handle	L=1000mm

Expanding bolts for concrete floors

For securing to concrete floors. For other floor types or in the case of underfloor heating, please seek professional advice.
