FLEXIBLE PROTECTIONS

Flexible safety solutions

To make work environments safe wherever there is movement of vehicles, goods and people.

Soluzioni di sicurezza flessibili

Per rendere sicuri gli ambienti di lavoro ovunque ci sia movimento di veicoli, merci e persone.

Solutions de sécurité flexibles

Pour rendre les environnements de travail sûrs lorsqu'il y a un mouvement de véhicules, de marchandises et de personnes.

Soluciones flexibles de seguridad

Hace más seguros los entornos de trabajo donde se mueven vehículos, mercancías y personas.

MPM Materials

FIRE CERTIFICATION FOR MPM REFLEX

NEWS

OUR POLYMER CONFIRMS THE V0 SELF-EXTINGUISHING CLASS

MPM barriers are classified as V0, according to the international UL94 standard, Reflex technopolymer Protections:

- Low fire risk;
 - Self-extinguishing;
 - Don't spread flames and stop burning within few seconds.
- The installation of our barriers lowers fire risk, compared to other barriers made of alternative polymers, not V0-Classified.

Le barriere MPM sono classificate V0, secondo lo standard internazionale UL94. Le protezioni in tecnopolimero Reflex:

- Hanno un basso carico d'incendio;
- Sono autoestinguenti;
- Non propagano la fiamma e smettono di bruciare entro pochi secondi.

L'installazione delle nostre barriere riduce il carico d'incendio rispetto ad altre barriere in polimeri alternativi, non classificati V0.

Les barrières MPM sont classées V0, selon la norme internationale UL94. Les protections en technopolymère Reflex:

- Elles ont une charge d'incendie minimale;
- Elles sont auto-extinguibles;
- Elles ne propagent pas la flamme et cessent de brûler en quelques secondes.

La présence de nos barrières réduit la charge d'incendie par rapport à d'autres barrières en polymères alternatifs, non classées V0.

Las barreras MPM están clasificadas como V0, según la norma internacional UL94. Las protecciones de tecnopolimero Reflex:

- Tienen una baja carga de fuego;
- Son autoextinguibles;
- No propagan la llama y dejan de arder en unos segundos.

La instalación de nuestras barreras reduce la carga de fuego en comparación con otras barreras de polímero alternativos, no clasificadas como V0.

REFLEX QLFA

Highly UV-resistant
Maintains its colour
over time

REFLEX RESISTANT AND FLEXIBLE

FROSTEX RESISTANT TO LOW TEMPERATURES

Durability Through Time

High Flexibility

Compliance With EU Directive 2015/863 (RoHS)

Resistant to Chemicals

Mold Resistant

Non-toxic

Resistant to Humidity & Saline Substances

REFLEX RESISTANT AND FLEXIBLE

IS FIRE RESISTANT CLASS V-0

At MPM, we believe in a safer future from every perspective.

We produce solutions to keep people safe under all circumstances, and that's why we commit to making our production processes increasingly more sustainable.

MPM Green

We are a "closed-loop" company, connected to a network of external businesses that allows us to eliminate waste from our production chain by recycling the "excess" and processing it to give it new life.

All of our products become useful, one way or the other, and waste is always avoided.

Siamo un'azienda a "ciclo chiuso", collegata a una rete di imprese esterne che ci permette di eliminare gli sprechi dalla nostra catena di produzione riciclando le "eccedenze" e trattandole per dar loro una nuova vita.

Tutti i nostri prodotti diventano utili, in un modo o nell'altro, e gli sprechi sono sempre evitati.

WATER USAGE

All water used is internally recycled to reduce pollution and maximize its utilization.

Tutta l'acqua usata è internamente riciclata per ridurre l'inquinamento e massimizzare l'utilizzo.

Toute l'eau utilisée est recyclée en interne pour réduire la pollution et maximiser son utilisation.

Todo el agua utilizada se recicla internamente para reducir la contaminación y maximizar su uso.

ZERO WASTE GOAL

Our products are crafted from 100% recyclable, non-toxic materials.

I nostri prodotti sono realizzati con materiali al 100% riciclabili e non tossici.

Nos produits sont fabriqués avec des matériaux 100% recyclables et non toxiques.

Nuestros productos están hechos de materiales 100% reciclables y no tóxicos.

CLEAN ENERGY

Our Italian facilities rely on solar power, curbing carbon emissions.

Le nostre strutture in Italia usano energia solare, tagliando le emissioni di carbonio.

Nos installations italiennes fonctionnent à l'énergie solaire, ce qui réduit les émissions de carbone.

Nuestras instalaciones en Italia utilizan energía solar, reduciendo las emisiones de carbono.

Our SHUTTLE can warn you of Possible collisions around corners.

It can detect incoming traffic from both ends and, if a collision is possible, will warn you with audio and visual cues. It can spot all types of moving object, from the largest to the smallest.

Il nostro SHUTTLE può avvisarti di possibili collisioni intorno agli angoli.

Può rilevare il traffico in arrivo da entrambe le direzioni e, se c'è la probabilità di una collisione, ti avviserà con segnali acustici e visivi. Può individuare tutti i tipi di oggetti in movimento, dai più grandi ai più piccoli.

Notre SHUTTLE peut vous avertir des collisions possibles autour des coins.

Il peut détecter la circulation entrante des deux côtés et, en cas de risque de collision, vous avertira par des signaux audio et visuels. Il peut repérer tous les types d'objets en mouvement, du plus grand au plus petit.

Nuestro SHUTTLE puede advertirte de posibles colisiones alrededor de las esquinas.

Puede detectar el tráfico entrante desde ambos extremos y, si es posible una colisión, te advertirá con señales auditivas y visuales. Puede identificar todo tipo de objetos en movimiento, desde los más grandes hasta los más pequeños.

●
●

SAFE WAY IS THE RIGHT WAY

Safe Way determines if the crossing is safe and distinguishes vehicles from pedestrians.

Safe Way determina se l'attraversamento è sicuro e distingue i veicoli dai pedoni.

Safe Way détermine si la traversée est sécurisée et distingue les véhicules des piétons.

Safe Way determina si el cruce es seguro y distingue los vehículos de los peatones.

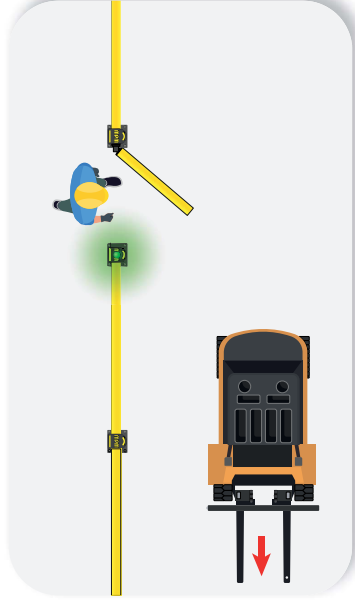

It stops when it detects oncoming vehicular traffic.

Si blocca quando rileva traffico veicolare in arrivo.

Il s'arrête lorsqu'il détecte la circulation automobile arrivante.

Se detiene cuando detecta tráfico vehicular entrante.

Safe Way allows passage when the vehicle no longer poses a danger.

Safe Way consente il passaggio quando il veicolo non rappresenta più un pericolo.

Safe Way permet le passage lorsque le véhicule ne représente plus un danger.

Safe Way permite el paso cuando el vehículo ya no representa un peligro.

CERTIFICATION

The TÜV SÜD certification was re-confirmed for rack protectors, 100% designed and manufactured by MPM in compliance with European standard EN 15512; Obtaining the TÜV SÜD certification is the confirmation of the company's commitment to the pursuit of qualitative excellence in its products.

Riconfermata la certificazione TÜV SÜD per le protezioni per scaffalature ideate e prodotte da MPM in conformità con la normativa europea EN 15512; L'ottenimento della certificazione TÜV SÜD è la conferma dell'impegno dell'azienda nella ricerca dell'eccellenza qualitativa dei propri prodotti.

La certification TÜV SÜD, attribuée aux protections des montants conçues et fabriquées par MPM conformément à la norme européenne EN 15512, a été reconfirmée. L'obtention de la certification TÜV SÜD confirme bien l'engagement de l'entreprise dans la recherche de l'excellence qualitative de ses produits.

Se confirma nuevamente la certificación TÜV SÜD para las protecciones montadas, diseñadas y fabricadas por MPM de acuerdo con la Norma europea EN 15512; La certificación TÜV SÜD confirma el compromiso de la empresa en la búsqueda de una calidad excelente de sus productos.

RP, RACK CORNER, LM, GRD 150, PED 90, GRIN 150

OUR INSTALLATIONS

OUR INSTALLATIONS

OUR INSTALLATIONS

OUR INSTALLATIONS

MPM states that:

The safety coefficient and consequent use of the products requires the compliance with the appropriate assembling and installation instructions as defined in the technical catalogue on the corporate website www.mpmprotections.com. Therefore, before buying and installing MPM solutions please consult the technical documentation provided by MPM.

Impact resistances indicated in the brochure, or in other documents, refer to laboratory tests and cannot take into account consequences determined by installation methods or peculiarities of the place where the products are installed. In an operational environment there is an almost infinite amount of variables, atmospheric condition, chemical conditions, salinity, exposure to UV light, vehicle type, speed and mass, routes, angles of impact, pedestrian routes, pedestrian behavior, catastrophic events, ground conditions and anchorage.

The data refers to an intact product which length is indicated on the test report and it can be affected by alterations from incorrect maintenance, wear and tear, as well as the methods and characteristics of installation (with specific reference to floor-mounted products); the weight, dimensions, colors and characteristics of the material refer to the sample and the conformity with the latter of the product supplied will be subject to normal production tolerance.

The warranty does not apply in the case of direct installation on asphalt without foundation plinths. Due to the particular nature and variety of this flooring, it is not possible to guarantee the impact resistance.

In addition, in the case of installation with foundation plinths on soil deemed unsuitable, the impact resistance cannot be guaranteed.

The height of the products hereby disclosed is calculated from the uppermost rail. Exception made only for LINK product lines. Length is calculated center to center. The product may be affected by uncontrollable environmental installation conditions. The standard operating temperature of MPM Flexible Protections is generally from +5 °C to +60 °C. For installations in low temperature environments up to -30 °C the alternative Frostex material should be required.

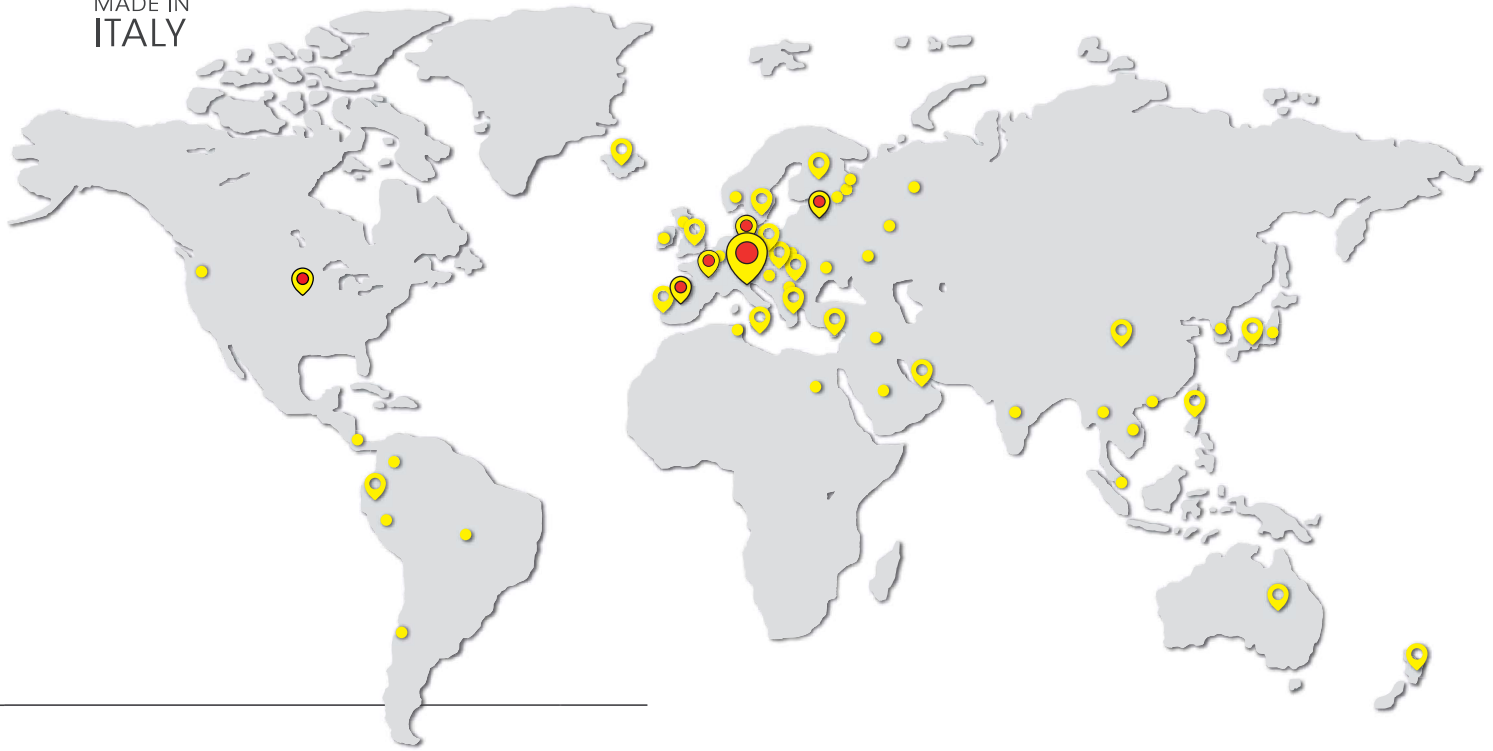

The fastness of the color and its brightness depend on wear and tear and weather conditions that can affect its intensity over time. For outdoor applications exposed to direct sunlight it is possible to choose the specific material Reflex Alpha or grey coloration.

Images in the brochure are for advertising purposes only and do not in any way represent how the products should be used. The images presented in this catalog are for commercial purposes and may not accurately correspond with the actual product. Small variations in color, design, and other features may occur. Full version of MPM products warranty available on corporate website www.mpmprotections.com
